## **DETAILED ACTION**

1. Claims 2, 12-28 have been cancelled.

### ***Specification***

2. The amendment filed 11/28/2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the newly added claim limitation with respect to the amount of crown ether present.

Applicant is required to cancel the new matter in the reply to this Office Action.

### ***Claim Rejections - 35 USC § 112***

3. Claims 1, 3-6, 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention for the reasons stated above in the objection under 35 U.S.C. 132 to the amendment filed 11/28/2003.

The specification as originally filed only provides support for crown ether contents ranging from 0.47 wt% (Example 17) to 0.98 wt% (Examples 1, 5, 9, 19, 21-24), and therefore fails to provide support for the recited endpoint value of 0.50 wt% or for crown ether contents

Art Unit: 1773

greater than 0.98 wt% (based on the use of two significant digits in the calculations -- if one significant digit is used for calculations, then the supported range is determined to be 0.5 wt% to 1 wt%).

***Claim Rejections - 35 USC § 103***

4. The rejections under 35 U.S.C 103(a) in paragraph 6 in the previous Office Action have been withdrawn in view of Applicant's amendments filed 11/28/2003.

However, the withdrawal of these rejections does **NOT** constitute a concession as to the applicability or non-applicability of the previously cited prior art to the previously presented claims or to the claims as presently amended. Upon cancellation of any new matter, the rejections may be reinstated.

***Response to Arguments***

5. Applicant's arguments 11/28/2003 have been considered but are moot in view of the new ground(s) of rejection based on the presence of new matter.

However, the Examiner makes **no** concession as to the applicability or non-applicability of the previously cited prior art to the previously presented claims or to the claims as presently amended. The Examiner reserves any discussion as the merits of the previously cited prior art references until the outstanding issue of new matter has been fully resolved.

Art Unit: 1773

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
